Faculty of Nursing '93

YEARBOOK

In 1989 when this year's graduating class began their studies at the Faculty of Nursing, there was a severe shortage of nurses, hospitals were being built and renovated to accommodate the large number of acute patients requiring 7-10 day lengths of stay, public health nurses had their own districts and visited all the high risk residents who lived in them and the caseloads of visiting nurse services were dominated by people requiring ADL assistance, wound care and palliative care. The Faculty of Nursing offered an undergraduate degree program using a curriculum that had been in place for 20 years and an M.Sc.N. program with a curriculum of the same vintage.

How things have changed! In Toronto alone 3500 beds are closed and the talk is about which hospitals will be closed. This has led to a surplus of nurses and few jobs for new graduates, lengths of stay have shrunk and 75% of all surgery is done on an out-patient or day basis; public health nurses no longer have districts but work on health promotion with a variety of communities; visiting nursing has become high tech. The Faculty initiated the new undergraduate curriculum and a new program for registered nurses. A collaborative project to test a lengthened fourth year and use clinically based preceptors was initiated. The PhD has been approved, the M.Sc.N. is now an M.Sc. with a new curriculum and we are awaiting approval of the new M.N. program.

The class of 1993 has been part of all these changes. This has produced a class that is adaptable and flexible and knows how to influence change. The health care environment is scary because it is changing so fast but it is also much more exciting than it was in 1989 and it holds the promise of more flexibility and responsiveness than was true earlier. Tackle it head on! You are ready for it!

Dorothy Pringle
Dean

MESSAGES

Congratulations to the Class of 1993! It has been a pleasure getting to know those students whom I met as Acting Chair and as NUR402Y clinical teacher. You have all successfully completed an important stage in your life. May you find the resources to meet the challenges you will encounter and have the good fortune to enjoy much satisfaction and success in your ventures. Please keep in touch with us here at the Faculty. We are always interested in hearing from our graduates.

Carol Brehaut

Acting Undergraduate Chair

NURSING

Christine Powell — Business Office

Cheryl Rhind — Faculty Secretary

Suzanne Ironside — Secretary to the Dean

William Pickett — Computer Lab Assistant

STAFF

LEFT TO RIGHT: Linda Williams — Secretary, Sue Tripathi — Admissions Officer, Jan Monaghan — Clinical Instructor.

Stacey Williamson — Clinical Instructor

LEFT TO RIGHT: Linda Williams — Secretary, Pam Khan — Clinical Instructor, Diana Gendron — Clinical Instructor.

ORIENTATION . . . FROSH WEEK

BED RACE

The Team

Get Ready

Get Set

Students from all years attended this year's wine and cheese party. It was held at Hart House music room. It was a great turnout. The blue jays were the topic of conversation that night and everyone was in good spirits.

WINE AND CHEESE PARTY

CANADIAN NURSING STUDENT ASSOCIATION

CNSA members Linda Scott, Allison Hotchins, and Sherry Biscope (Official delegate for U of T) welcomed the frosh students to the U of T Nursing Faculty.

HALLOWEEN

U of T Nursing students help the children celebrate Halloween at the Hospital for Sick Children.

WALK THE WALK, THE AIDS WALK-A-THON

THE DAY ONLY CRAZY PEOPLE CAME TO SCHOOL

SAC DAY

The Faculty of
Nursing
participated in Sac
Day by offering a
massage booth.

ORIENTATION WEEK

Orientation week was a big success with dancing at the Concert hall, dinner at J.J. Mugs, fun at the movies and lots of other excitement.

R.N.S AT THE FACULTY OF NURSING

Two of the RNs Pat Raina (left) and Sarah McCarthy (right) discussing current issues in nursing.

A POEM FROM '92 POST R.N.S

At Clinical we all arrived,
Nervous and wondering if we could thrive,
Not knowing quite how to spend our time,
And guilty perhaps of just one little whine!

To our rescue came Paula, our hero Prof.
Who calmed fears and tempers and at our self doubts did scoff,
Though we trembled and groaned at the heavy workload,
Paula helped and encouraged us on that long twelve week road.

Paula's first conference set a strict measure,
And inspired each of us to produce such a treasure.
Patient Classification Systems was Barb's delight,
And Ellie brought intestines into the light!

Eleanor made her point when our arms ached with pain,
And Stephanie made touch just a little more humane.
Jennifer highlighted caregivers and their plight,
And MaryAnne discussed discharge planning — it's an uphill fight.

Rumi's orange was a patient warehoused in long term care,
And Vivian focused on helping nurses, their stresses to bear.

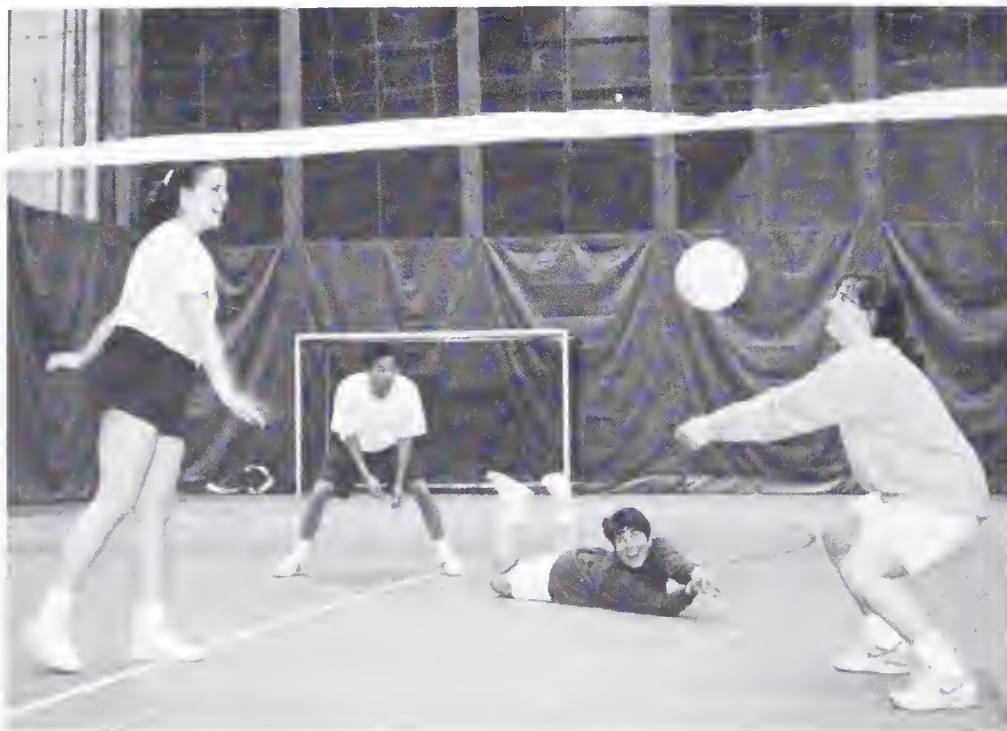

Throughout our conferences we often had treats,
Candy kisses, Valentine hearts and Easter eggs so sweet,
Eleanor let us drink the pop that broke our arms,
While MaryAnne introduced us to dried papaya with which we were thoroughly charmed!

So now we've finished twelve weeks of learning,
And I suspect for this group we may sometimes be yearning.
We leave with new strength and feelings so warm.
That will support and sustain us through any fourth year storms!

Love to you all,

Barb Mildon

SPORTS BREAK

Nice smile?!!

Move! I can't see the overhead!!

Wow! I made it through another day.

What the * * !!! * * !!

CNSA

CNSA which promotes education and professionalism in nursing had a great year with a number of firsts; the CNSA committee, monthly speakers and memos. Thanks to everyone.

CNSA: Sherry Biscope (Official delegate) 9T4, Aileen Alerta (Associate delegate) 9T5, Allison Hutchins (Ont. Regional Director, and Yr IV rep) 9T3, Jacquie Williams (Yr I rep) 9T6, Mahreen Hasan (Yr II rep) 9T5, Janice Fleming (Yr III rep) 9T4.

Committee:

Mike Carr 9T5, Debbie Birrell 9T4, Catherine Villena 9T4, Tamiza Chagan 9T4, Bindu Kumar 9T4, Sarah Cho 9T4, P.J. Jappy 9T4, Paula Pereira 9T4, Linda Scott 9T3, and Diana Adams 9T3.

RNAO

RNAO Student Interest Group
 President: Sue Hunnisett (Yr IV)
 Vice-President: Carolyn Kostiuk (Yr III)
 NUS Representative: Janice Moreau (Yr III)

Year I Representative: Jennifer Bissett
 Year II Representative: Angela Pisan
 What is RANO?

The Registered Nurses' Association of Ontario is nursing's professional voice. It deals directly with the many issues and concerns affecting nurses throughout the province. The purpose of the Student Interest Group is to allow students to have a voice within the nursing profession and to have an impact on the future of their career. We hope that we have increased awareness of the RNAO within the faculty this year by hosting guest speakers and by ensuring that each year has a representative from the Student Interest Group. It's been a terrific year!!

The world is round and the place which may seem like the end may also be only the beginning.

Ivy Baker Priest

BABY BOOM . . . FACULTY OF NURSING

ARE YOU SUFFERING FROM P.E.S.?

P.E.S. is a new syndrome that hits both sexes equally, occurring in epidemic proportions in the student population.

P.E.S. Pre Exam Syndrome

SYMPTOMS

- hypertrophy of normal procrastination abilities
- spontaneous, irrational behaviours
- increased irritability or moodiness
- fits of hysterical laughter at the drop of a hat, scarf, pronoun, etc.
- extended periods of chuntering to oneself, often exceeding an hour in duration
- intense internal frustration with concomitant ventilation pattern changes

TREATMENT

There is no known cure for this syndrome. Symptoms must be allowed to run their course. While the personality changes experienced can be bizarre, permanent scarring of the psyche is unusual. Ethanol, cannabis, and pheromones will alleviate the symptoms briefly, but they return with greater intensity once these medications are fully metabolized. The power of positive thinking, creative visualization and vigorous exercise have been reported to reduce the severity of the symptoms, but claims of complete eradication of all symptoms have not been clearly substantiated during recent outbreaks of the syndrome.

P.E.S. is a self limiting syndrome. It does burn itself out. P.E.S. ends with a period of heavy flow of ink with some spotting of lead.

One mysterious effect of this syndrome is the jubilant afterglow and feeling of exhilaration experienced after the resolution of the symptoms.

Beware. If you encounter anyone with P.E.S. handle them with extreme care and caution. They should be encouraged to apply themselves studiously to regular check-ups. If possible avoid persons with P.E.S. until after their final examination.

FUNDRAISING EVENTS 1992-93

September:

Shinerama, Frosh Week

October:

AIDS Walk-a-thon

December:

Food Drive

February:

Project 911 Dance

March:

Sick Kids Telethon T-shirts

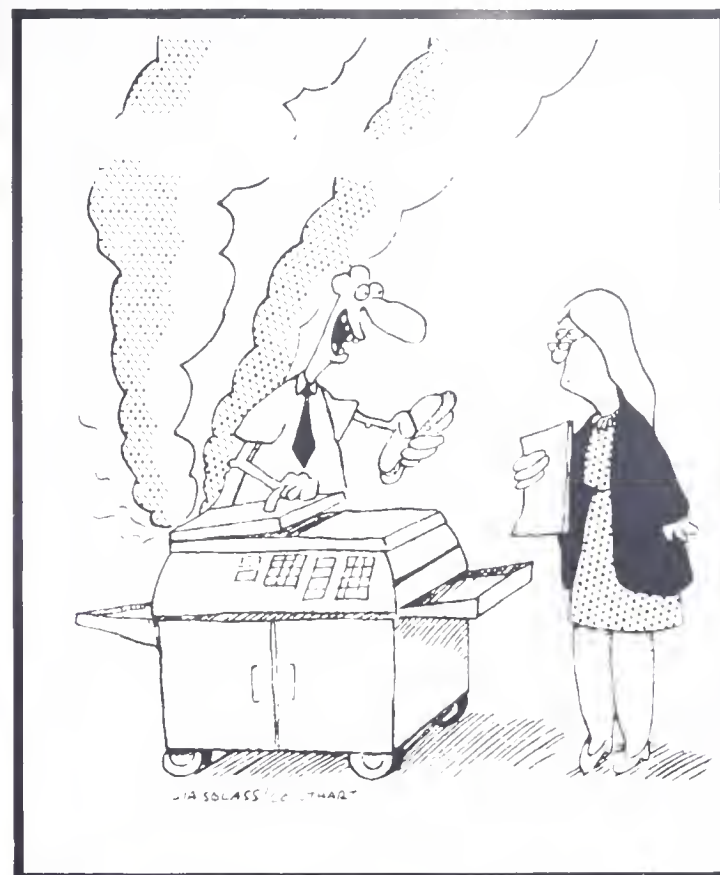

We had increasing success and support this year in our fundraising efforts with more individuals participating in our events. We would like to thank all those who lent a hand and helped those who are less fortunate than us. Good luck to the fundraising co-ordinators next year in continuing U of T Nursing's tradition of generosity. May the students continue to be as supportive of you as they have been of us.

Tracey Todd &
Karen Parker
Fundraising
Co-ordinators,
Class of 9T4

I can't seem to get it to work. It won't take my money!

If you turn it up to "high", we can make hot dogs.

It's a plane, it's a computer. No, it's the new and improved photocopier. It works like a charm.

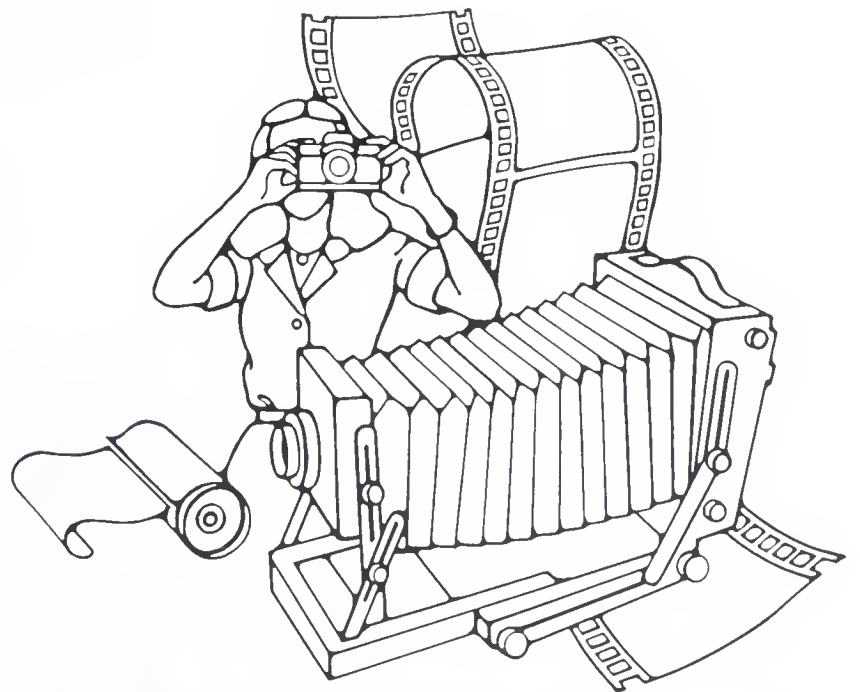

EVERLASTING MEMORY

Yearbook '93:

I never knew it was this difficult and nobody ever told me, but I did go through it and with the help of Po Hong Ng, Janice Fleming, and Jovina Concepcion, the yearbook is now finished. I would also like to thank Clive Ali and Trish Trieu for helping me to type the "lengthy" grad blurbs. My special thanks go to Christine Powell who kindly assisted me in collecting the names of the undergraduate students. I wish you all good luck in the future.

HAMID M. NAM, YEARBOOK EDITOR

N.U.S. PRESIDENT

What a year!!! The members of The Nursing Undergraduate Society worked very hard to provide the kind of services that the student body expected of them. From the boat cruise and the wine and cheese at the beginning of the year, to the CNSA conference and the most exciting elections we've had in years, the members of NUS proved themselves worthy. There was spirit week, athletics, grad ball, three editions of the Nursing News, this yearbook, the food drive and AIDS Walk-a-thon, speakers of all descriptions, and of course the new photocopier. The year was very hectic, but we pulled together and made it the best that we possibly could. Thanks to all of the members who contributed and good luck in the future.

THE GRADUATES OF 1993

DIANA ADAMS

If at first you do succeed — try to hide your amazement! It's been fun (I think). Take care everyone.

KIMBERLEY ADLIFF

"The seeds of education are bitter but the fruit is very sweet". To Paul, my family, and all my buddies who kept me going, THANKS! To the one person who understood what I went through . . . (Michelle). We lived to see the end of it!

CLIVE ALI

I was here for 4 long years
Met lots of people; some were queer
I hated going to SigSam
finding journal articles was rare
So I reused the ones I found
especially those from 1st. yr
Now it's all over Is that reason for despair?
I'm glad to say that I got my degree here!

NELY AMARAL

I've finally reached the end of my past, and the beginning of my future. Thanks to my husband Jase Manuel for his support and for putting up with my constant complaining. Thanks to my mom — it's been hard! I will always remember J.P. and E.B., my friends for life!

LISA CHAMA ASTOLFO

Destiny is not a matter of chance, it is a matter of choice; it is not a thing to be waited for, it is a thing to be achieved. (William Jennings Byron). Thanks.

ANDREA AUBERT

We made it — to the class of 9T3 — Good luck in all your future endeavours!!

FIONA BALLANTYNE

Well, it's finally here! The past four years have consisted of hard work, stress, early mornings, Cody hall?! and support and laughs with great friends! What is the true meaning behind the past four years?, I will probably take another four years to figure out!

ELIZABETH BITZOS

To my family, thanks for all your support! To S.K. Thanks for being there for me. To J.P., N.A., C.K., A.A. we made it and I wish you all the luck in the world! See you at the reunion!

ROSANNE BOLEN

Yeeha! What was that line from orientation, something about being darn proud to be a nurse?! (One of the few things I remembered from that week). My family and friends are terrific, without you it would have been worthless. I wasn't cranky that often, was I Dan?

SANDRA CAMPBELL

Thank you Jesus for taking me through. Special thanks to my children, Jasmine, Sabrina, Daniel, and Nathaniel. To my mom, dad, sister (Audrey), friends and relatives, thank you for your love, support and care. Margaret, you are the best! Oops, before I forget, thanks Vernon.

JENNINE CHAN

Confucius say: A picture is worth a thousand words . . . So here's my picture! Special thanks to my family and friends (J.G., S.C., V.M., S.V., Y.Y., and J.C.). I couldn't have made it without you.

JOSEPHINE CHAN

There are many ups and downs throughout these years of hardship. Fortunately, I can still survive. Thanks for the support from my friends especially Yvonne, Simone, Vivian, Stephania, and Jennine. I wish our friendships last forever!

SIMONE CHEONG

I love nursing, a love I got from my aunt Pat. My success at U of T was due to hard work, supportive family, faculty and special friends (S.V., V.C.*2, Y.Y., V.M., & A.P.). Thanks for 4 great years.

ANGELINE CHEUNG

"Now to him who is able to do immeasurably more than all we ask or imagine according to his power that is at work within us." Eph 3:20.

WAYNE DICKIE

The race was between graduating and becoming a grandfather. Graduating lost. It's a good thing my fellow students keep me young, otherwise I might never have made it through. So for my next career choice . . .

MANJIT DHANOA

It has been a hell of a 4 years! I could not have made it without my good friends C.M. (Christy-baby), M.M. (Michi-Mi), N.T. (Naughty Nurse Nad), V.K. (Viviano), Duckie Jan, Mare and everyone else I got to know over the years. Thanks especially to my parents for their unconditional love and support (and financial assistance!) Congrats and good luck to everyone — IT'S FINALLY OVER!

MARY ANN DOROTHEO

I take everything in two year bites. Did I bite off more than I can chew? Wow, I can get more than an hour of sleep. American Express . . . watch out! I'll miss my friends, possibly some faculty. Now for the school work . . . that's another matter.

JOANNE GILCHRIST

Watch it now.
The eagle in the sky.
How he's dancin', one and only.
You lose yourself; no not for pity's sake.
There's no real reason to be lonely.
Be yourself!
Give your free will a chance.
You've got to want to succeed. (Yes, 1983).

MICHELLE GALLUCCI

It's finally over . . . 4 years of torment!!! Thanks to W.C., my friends & family for your support and encouragement. Existentialism?? What's that? Thanks Kim for the great memories.

LYNDA HALLMAN

To all those who've shared the ups and downs of the past five years with me, thank you for your support from the bottom of my heart! And especially Dave, for were it not for you, I would not be here. Hey look, I made it!

MAUREEN HART

These past four years have consisted of many highs and lows. Thank you to my wonderful friends for making the highs so much higher, and the lows not so low. We stuck together and we did it!!

JULIE HOPSON

Good luck to all the graduates! It's a difficult time to be entering the workplace — but if we made it through the past 4 years, we can make it through anything. Special thanks to Tanya for all your support.

SUE HUNNISETT

As we start a new and exciting journey in our lives, I want to thank my friends who made the past 4 years unforgettable. To all those who've shared the ups and downs with me — Thank you, from the bottom of my heart.

ALLISON HUTCHINS

May friendships, like wine, improve as time advances, And may we always have old wine, old friends, and young cares. Thanks to you all for seeing me through . . . for it has made all the difference.

ROSANNE JABBOUR
Ciao!

TAMMY JACKSON
Good Things Come To
Those Who Wait; Psyche!!

JOYCE KISHIMOTO
I survived these four years
thanks to my friends T.Y.,
W.H., C.U., T.T., N.O.,
C.M. & E.M. and family. I
can't believe it is over, now
on to the real world!

ESTHER LAM
two roads diverged in a
wood
and i, i took the one less
travelled by
and that has made all the
difference.
(Robert Frost, the road not
taken)

KAILING LI
A toss to the class of 9T3
All the best for years to
come

VIVIAN MANINGAS
Thanks to my family for all
their support and encour-
agement. E.C. thanks for
putting up with all my mood
swings and being there
when the going got tough.

TRICIA C. MARHIN
Thank you Dad, Mom, my
family and my friends in
Nursing and in Arts &
Science. I would like to
leave you all this personal
quote: "It's okay I'm a
nurse!" (Winter, 1989) I'll
be back U of T!

KAREN J. McKINLAY
I'd like to thank my Mother,
Michele, Chris and Cleona
and the rest of my family
and friends for being there
when I needed you the
most. Best of luck to all '93
Grads. Look out Texas,
Tanya and I are coming in
for a landing!!!!

TANJA MERTINEIT

Now to get on with life! Karen, see ya in Texas. Thanks to mom, dad, RB, JB, KM, HE & TK for your support. I couldn't have done it without you. GOOD LUCK GRADS.

LAUREN MIDGLEY

Love and caring makes us unique. Let us stay strong and committed and we will be fulfilled. Watch out world — it's time for a change!

ROSINA MONTEMARANO

I truly believe that if there is a will, there is . . . even when it seems impossible . . . there is a way!!

ANNE MUNRO

The amazing people I met and the best friends we all became have made the last four years fabulous. Good luck to you all . . . The best is yet to come.

NANA AMA A. OSEI

I hate to say this, but I am glad it's over. This had been a long four years. Goodbye theory! Hello practice. Thanks to all my friends, especially Vivian K., Joyce K. and Andrea P. Biggest thanks to Edward, for believing in me.

LEE ANNE V. PALISOC

Through all these agonizing years, we've made it through — serenity, courage and wisdom. T.N.S.T.

JOANNA PANAYIOTOU

They say that the friends you make in high school are your best friends, but your friends from university are your friends forever. Elsa, Nely, Carolyn and Alison — I love you guys. To my dad, mom and Helen, thanks for your guidance and support.

MARY PERLAS

This is my dream come true. Thanks to Mom, Dad, Wondertwin & Lucky for your love. Jane & Reddy — my special friends. I couldn't have made it without you crazies. BABS: Thanks for believing in me and always knowing how to make me laugh.

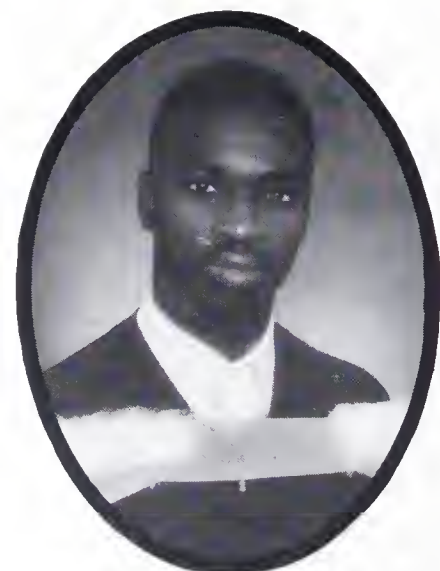

BEATRICE PIETRZYK

Special thanks to my family and friends, especially R.L., M.K. and L.M. for all your loving support. Good luck and best wishes to all my classmates. We finally made it!!!

LLOYD PRYCE

It sure is nice to see the end of my 4+1 years of this great university of ours. It's amazing how much things have changed since I started: First there were lots of jobs; now there are none.

KELLY ANN REEVES

Thanks to friends and family who gave me the strength to face every day — especially Mom, Dad, my Roomie and Sweetie. I couldn't have made it without your love and support. Best wishes to all my classmates in your future endeavour, and good luck with job hunting! Always believe in yourself and live every day as if it were your last.

KATHLEEN ROONEY

Thank God for the inspiration and help to persevere these two years. Also many thanks for the support of the RN group. We finally made it girls.

JANICE RUNZA

"Each friend represents a world in us, a world possibly not born until they arrive, and it is only by this meeting that a new world is born" — Anais Nin. Thank you John for being my best friend.

SONYA SHANTZ

"Break on through to the other side". At last, life begins. Thanx to my friends and family for tolerating me the last 4 years. Good luck everyone and remember — "Work hard, play hard".

LINDA SCOTT

"To try may be to die, but not to care is never to be born" — Anonymous. We have survived the four years, and now we're on to other things. Thanks to all my friends for the help; M.H., A.M., J.R. and especially A.J. Good luck to the class of 9T3.

NADIA TORRESAN

A fond farewell to the class of '93. Thanks to my existential advocates: Christy, Vivian and Manj for making the last four years bearable and enjoyable. Here's to the end of scrumptious lunches at MedSci. All the best today, tomorrow and always! (P.S. Is this supposed to be an APA format?)

TRISH TRIEU

Never be afraid to be different! After all, isn't that what makes all of us so unique and interesting?

CHRISTA VERHAGE

I did it! Thanks to both my families. Here's to late nights and late essays!

STEPHANIE VIEGAS

Never mistake knowledge for wisdom. One helps you make a living; the other helps you make a life (Carey). Thanks to my family and friends for the wisdom shared over these 4 years. Good luck to all the grads.

TERESA KA YAN WONG

The challenge continues . . . Four years of intense learning have passed by. With this background knowledge, we are now prepared to take on a NEW challenge.

YVONNE K. YIU

Thought it would never end . . . Well, well. Thanks to all who have been there for me these 4 years. Special thanks to P.B. for your kindness and words of wisdom. You guys have been great — V.M., S.V., S.C. & J.C. x2. "Remember HOT CHOCOLATE?" Mom & Dad . . . I did it! Phil & Anna . . . Be good! Thanks for putting up with my mood swings Dan . . . Love always!

TERESA YOUNG

Life is filled with many paths,
At times it's rocky, at others smooth
Now it's time to change directions.
So . . . sit back and enjoy the ride!
Take care my friends!
Special thanks to W.H. & J.K.

Status . . . do you think now I've possibly achieved it? How can I use some of those theories? Nursing may never be the same. I'll have second thoughts about group studies in the future. Someone should use our group as a research subject.

HEIKE EBLES

Thanks to my family for their love and support, and to a very special friend and love, Jim, who stood by me through it all — I dedicate my life. To my newfound friends, TJK, I wish you a rainbow. All the world's a stage — we are merely players. — RUSH.

BARBARA MILDON

There are two words that best express my memories and my thankfulness:
To my nursing professors for their empowering and sensitive SHARING,
CARING.

And to my Post R.N. colleagues for their spirited and supportive
"Luctor et emergo" (Struggle and come through). Thank you all!

VINCE NARDI

Realizing one's own ability to care has been a privilege which U of T Nursing has taught me most sufficiently.

RUMI NGUYEN

It's over! My family is happier than me (perhaps?) Thanks to all who supported me.

ELLIE STEW

Please . . . Oh how I love theory, "NOT". I want to thank my friends for their constant support, but especially Jane (Bunny) who was always around for me day or night. Also, a special thanks to the new friends I met these past few years.

Research means one thing... life.

For thousands of Canadians, Sandoz research has meant a new lease on life following organ transplantation. Thanks to research into immuno-suppressant agents, people of all ages are celebrating successful transplantations. And so are we.

We are celebrating more than ten years since our clinical trials began on an agent that has changed transplant medicine forever. And the research continues.

Our research has meant a breakthrough for medicine. For thousands of Canadians, it means life.

Research means life.

SANDOZ CANADA INC.
Dorval Québec H9R 4P5

Nursing For All The Right Reasons

Regardless of how quickly medical technology advances, the essential element of successful nursing is your innate capacity for caring.

The Ontario Cancer Institute/Princess Margaret Hospital is the largest centre for cancer treatment, research and education in Canada. As an Oncology Nurse at Princess Margaret Hospital, you can have a profound impact on the well being of cancer patients. Your expertise will become an integral part of a multi-disciplinary group of healthcare professionals who provide comprehensive acute care and psycho-social support.

This is a position that demands the utmost in dedication, cooperation and teamwork. But while the expectations are high, so too are the rewards. Affiliated with the University of Toronto, The Princess Margaret Hospital offers specialized education programs that allow you to focus your talents in the specialty of Oncology Nursing. The Princess Margaret Hospital is an excellent choice for dynamic and energetic Nursing graduates.

Join our team for all the right reasons. For more information, call us at (416) 926-4646. Or, send your resume, in confidence, to: Human Resources Department, Ontario Cancer Institute/Princess Margaret Hospital, 500 Sherbourne Street, Toronto, Ontario M4X 1K9.

In support of the French Language Services Act, we are pleased to invite applications from bilingual (English/French) candidates.

**BECTON
DICKINSON**

GREAT THINGS ARE ON THE HORIZON!

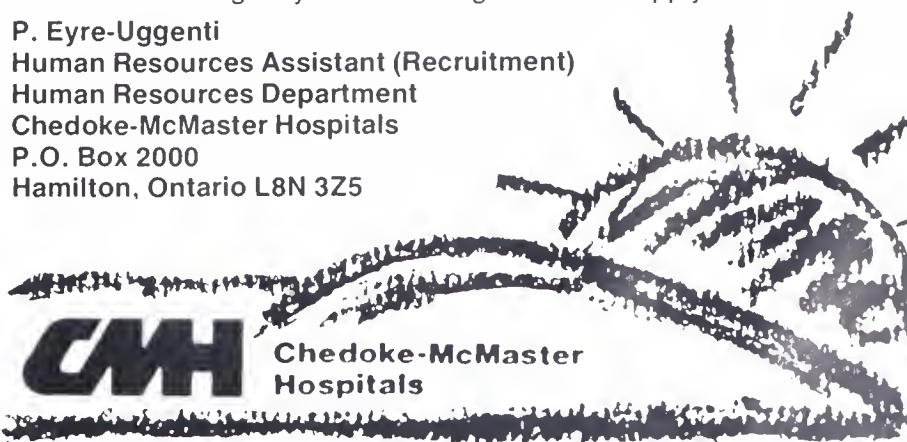

And Nursing is on the rise at Chedoke-McMaster. We have created a Nursing Education and Professional Development Directorate, started strategic planning, and developed a Nursing Committee Structure as a first step toward shared governance . . . and we have only just begun! We aim to be leaders in innovative nursing practices.

Come practice nursing in our University Teaching Hospital. We are located in the heart of the Hamilton-Niagara region, a short drive from Toronto, Niagara and Stratford.

When weighing your career options consider the advantages we offer, we are particularly interested in baccalaureate-prepared nurses and have the unique advantage of close physical proximity to McMaster University with which we share both philosophy and clinical resources. Exciting research, teaching and learning are a way of life here and greatly enhance the quality of patient care as well as contributing to the professional development of our staff.

As a Chedoke-McMaster Hospitals Staff Nurse, in a wide variety of specialty areas, you will function as a full member of an interdisciplinary team of health professional, enjoying all the benefits of a genuinely progressive health care facility. These benefits include a participatory management style, tuition assistance, counselling, and flexible scheduling for your continuing education. Apply to:

P. Eyre-Uggenti
Human Resources Assistant (Recruitment)
Human Resources Department
Chedoke-McMaster Hospitals
P.O. Box 2000
Hamilton, Ontario L8N 3Z5

**We know
two things
you don't
want to learn
while
at university.**

You don't want to learn that you're going to be a parent before you're ready.

Or that through one careless moment, you've caught an unwanted disease.

So take care. Be well informed and protect yourself.

At Ortho, we're the experts in birth control and disease prevention. That's why we'd like to help make sure you learn only the things you want to learn.

Take care. Not chances.

SAINT ELIZABETH VISITING NURSES' ASSOCIATION OF ONTARIO

Saint Elizabeth's has provided nursing care services to the community since 1908. Our mission is to contribute to the quality of life for clients and their families.

Services are provided to all clients regardless of age or care required. We can provide nursing care in the client's mother tongue to ensure comfort and understanding.

Saint Elizabeth's clinical areas of excellence include palliative care and oncology, mental health care, chronic/long term care, gerontology, and maternal/child care. Our staff of over 800 includes RNs, RNAs, health care aides, and homemakers. Nursing care services are available seven days a week, 24 hours a day. We have offices in Metropolitan Toronto, Peel, and Durham Regions.

***THE HAMILTON CIVIC HOSPITALS — TOGETHER IN CARING,
TEACHING AND DISCOVERY***

The Hamilton Civic Hospitals has a proud tradition of service to the community that goes back almost 150 years. This tradition of caring underlies our mission and complements the state-of-the-art technology and expanding facilities at both Henderson General and Hamilton General Divisions. We maintain a strong commitment to research and to the education of a variety of health professionals!

Together our Divisions have more than 3,000 employees and approximately 1,000 beds. Our tertiary commitments provided on behalf of Hamilton's network of teaching hospitals include: burns, multiple trauma, cardiovascular and neurosciences, plus cancer treatment and some aspects of maternity care and rehabilitation medicine.

COMMITTED TO SUCCESS ... YOURS AND OURS

At Peel Memorial, we're truly proud of the diverse individuals who make up our many professional teams. They're the ones who put the caring into health care and ensure that our 450-bed active treatment hospital effectively meets the needs of patients.

Located in the thriving community of Brampton, we continue to experience a growing demand for our services. Recent health care graduates and experienced professionals can expect to further their skills in our dynamic, team-oriented workplace.

Highly-committed to your professional development, education and success, we offer competitive remuneration, excellent benefits and the chance to contribute your talents in a vital and supportive environment.

Join us in our going quest for health care excellence.
